# COMPANY PROFILE

Vansh Agro (U) Ltd

## MESSAGE FROM OUR MANAGING DIRECTOR

Relationships created on one project should be nurtured and sustained for a lifetime of projects. As a young man, my parents instilled this ethic in me and it spills over into my business philosophy today.

Vansh Agro (U) Ltd is a family-owned and operated business. I started the business with my wife, initially acting as the manager and supervising all aspects of field operations. As the company grew, so did my presence,

where I provided estimating and corporate operational oversight. Now, as Chairman and Managing Director, I assume full responsibility and authority for Vansh Agro (U) Ltd. I'm active in all corporate operations, and I stand behind my word.

For the past 7 years, we have remained a family-owned-and-operated business, and continue to stress the importance of sustained customer satisfaction and long-term business relationships with clients, potential clients, subcontractors, and other industry professionals to all Vansh Agro's team members.

While our hardware staff are doing their jobs, Vansh's Sales, and Marketing Department is working hand in hand with all aspects of business operations, providing valuable feedback about our clients and how we serve them. We take great pride in working first to ensure existing client needs are exceeded; and only then do we seek out new business opportunities. The highest importance is placed on building ethical and moral alliances and incorporating sound business practices on all projects bearing our company name.

You can count on my pledge to anyone considering using our services: At Vansh Agro (U) Ltd, we will treat you with respect, work to establish your trust, staff your project with skilled personnel, and perform the highest level of service necessary to complete your project beyond your expectations. We are in the business of building more than buildings; we want to be your building partner for life.

— Gulshan Ram, Managing Director

## ABOUT US

Vansh Agro (U) Ltd is one of the reliable hardware materials supplier in Uganda. We are established suppliers of steel products like i-beams, channels, angle bars, hollow sections, flats, bars, mild steel plates, binding wire, wire mesh, BRC rolls, nails, roofing sheets, chain link, barbed wire, expanded metal, wheel barrows, and so much more.

We also deal in Cement, Welding rods, DPC kavera, Cutting Disc, Grinding Disc, hoop iron, and z-purlin. We have outlets in Mutebi road, Katwe along Entebbe road and Kawempe, along Bombo road opposite A.S Energies Petrol Station, near Kawempe Police Station.

Our strength comes from our deep understanding of the hardware industry, and our dedication to offering supreme services to our customers which has made us favourites in the market growing our customers tremendously over the years. With these good results, we are confident that adding your quality products to our inventory base is a turning point to covering more markets and extending our appreciated hardware services to more Ugandans who wish to add a building block to their communities through infrastructure development and wellbeing.

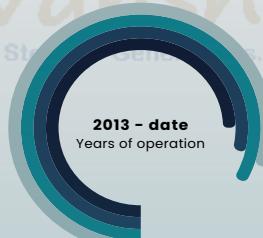

Vansh is managed by absolute professionals who are visionary in planning and ambitious in execution. With the leadership of a competent team, we are confident that growth is inevitable which directly benefits our partners like you. I will follow up with a call to discuss further, it's a pleasure doing business with you.

## OUR BRIEF HISTORY

Our rich heritage of hard work and excellent services began in 2009 as farm produce suppliers of mainly cocoa beans and coffee until we added steel to our supply chain in 2013.

Since then, we have actively participated in the hardware material supply industry with undeviating enthusiasm and we've been around for that long not only rolling with changing times but often leading the way.

From the beginning, our philosophy has always been "service as our main offer" and this has allowed us to form deep relationships with our clients which has enabled us to grow into what we are today.

**Mr. Gulshan Ram**

Managing Director, Vansh.
